TEUTON FORCES IN FULL FLIGHT

Haig Pushes Through Wotan Line
and Hits at Vital Points
of Enemy.

MRS. BAYNE
Prominent English Woman Engaged in War Work.

FOE IS DEMORALIZED

Germans Unable to Make Even Temporary Stand Against Onrushing Allies—Cambrai and Douai Are Menaced.

London, Sept. 5.—The Germans are now giving ground over the entire 150-mile battle front from Ypres to Rheims.

Seemingly the question whether the Germans will be able to hold relatively their present lines from Flanders to Champagne is being answered. And the answer apparently is in the negative. The strategy of General Foch, which imposed on the Germans the necessity of falling back in Flanders, Artois and Picardy, now likewise is compelling the enemy to withdraw from the Vesle river between Soissons and Rheims northward toward the Aisne in order to avert disaster.

London, Sept. 5.—Field Marshal Haig has driven home his drive through the Wotan line as far as the Canal du Nord and as yet his progress is not reported checked.

Already the wedge they have driven into the German defenses in the sector between the railway centers of Douai and Cambrai is a menacing one to the enemy, who must stop the British on the canal line if he hopes to save these bases—vital points in the German defensive system in the west.

Germans Reported in Confusion.

Disorganization in the German ranks is reported in unofficial advices from the front and there seems to be more than a possibility that the enemy command will not be able to reconstruct its defensive formations even in time to hold up the British temporarily along the canal positions.

The main force of the British push seems to be in the direction of Cambrai along the Bapaume-Cambrai and Arras-Cambrai roads and in the terrain lying between these highways. In this area they are reported today to have captured the towns of Inchy en Artois and Moncure.

This represents an advance of between 3½ and 4 miles beyond the southern section of the famous "switch" line at Quenay.

Further south the British likewise have reached the line of the canal well down to Peronne, on the Somme, making their front along this artificial waterway cover an extent of more than 20 miles. They are reported to have even crossed the canal along its southern length just to the north of Peronne.

Two Key Cities Menaced.

The menace to both Cambrai and Douai may be indicated by the fact that the British are within 5½ miles of the outskirts of the former city and not more than six miles distant from Douai.

At Inchy-en-Artois they are a little more than two miles from the Bourlon wood position where General Byng was temporarily anchored in his drive at Cambrai last fall, marking what was virtually his nearest approach to the city.

TO EXEMPT SKILLED LABOR

Charles M. Schwab Wants Shipyard Employees Excused.

Philadelphia, Sept. 5.—To prevent further drafting of skilled workmen from shipyards, Charles M. Schwab, director general of the Emergency Fleet corporation, and Rear Admiral Bowles, general manager, will make a personal appeal to the authorities at Washington to obtain a blanket exemption from military service for skilled shipworkers.

WIPE OUT BOLSHEVIK ARMY

Czecho-Slovaks Destroy Force Operating East of Lake Baikal.

Washington, Sept. 5.—Belated dispatches reaching the State department from Irkutsk, Siberia, via Peking, say the Bolshevik army east of Lake Baikal has been destroyed by the Czecho-Slovaks, that Cossacks are co-operating with the Czechs and that all Americans in Siberia are safe.

Zurich, Sept. 5.—Turkey has sent a note to Berlin protesting against the supplementary Brest-Litovsk treaties injurious to Turkish interests in the Caucasus, it is reported today.

American Shipping Losses Very Small

(By United Press)

Washington, Sept. 5.—American shipping losses from the submarine raids in American waters were less than seven-tenths of one per cent in the last three months, according to estimates made today.

Boston Leads in 4th Inning World Series

(By United Press)

Chicago, Sept. 5.—At the world's series park Chicago faced Boston in the first game of the classic. Boston's batters were Ruth and Agnew and the Cubs had Vaughn and Killifer.

First inning—Boston 0, Chicago 0. Second inning—Boston 0, Chicago 0.

Third inning—Boston 0, Chicago 0. Fourth inning—Boston made one run when Shean walked and went to second on Whitman's single. McInnis singled, scoring Shean. Chicago made nothing in their half of the fourth inning.

Roumanian Farmers Revolt Against Huns

BY HENRY WOOD,
(United Press Staff Correspondent)

Rome, Sept. 5.—Roumanian farmers are heavily revolting against the Germans as a result of the latter's confiscation of Roumanian crops. According to the dispatches German soldiers are often killed by the farmers and the uprising is growing. Near Bucharest peasants attacked a train carrying grain to Germany, killed the guards and carried off the grain.

Artillery Active on Italian Front

(By United Press)

Rome, Sept. 5.—There is intense artillerying on the whole Italian front.

British Take Flanders Villages

(By United Press)

London, Sept. 5.—The famous Ploegstreet village in Flanders, two miles north of Armentières, has been taken by the British. General Haig says in an official dispatch, Hill number 63 south of Messines has also been taken. On the Lys front we hold the general line of Voormezeele, Wulverghem, Ploegstreet, Milp, Laventie and Givency. General Haig announced.

Dr. Delbrueck's Son Killed.

Paris, Sept. 5.—The son of Dr. Clemens Delbrueck, former German imperial vice chancellor, has been killed on the battle front, according to a dispatch printed by the Zeitung of Zurich.

MAJ. GEN. WALLER

Foe Begins Rapid Retirement Before French and Americans on Vesle.

MACHINE GUNS ACTIVE

Withdrawal of Main Body Is Being Covered by Strong Rear Guards—Allies Are Keeping in Touch With Enemy.

With the American Army on the Vesle front, Sept. 5.—The Germans are withdrawing from the Vesle. Patrols of French and Americans are close on their heels to the west of Bazoches and eastward to a point beyond Fismes.

Smart machine gun resistance is being encountered. By all indications the Germans have withdrawn their main bodies to the north, possibly preparatory to crossing the Aisne.

The Americans have advanced their lines some distance north of the Vesle.

It became more apparent that the Germans had given up the struggle to maintain a foothold north of the Vesle. American and French artillery continued their punishing fire over an area extending to the Aisne without bringing a reply that could be compared in intensity.

The advanced American detachments were confronted with the same sort of machine gun fire that the Germans have used in all other cases recently to hold off the opposing forces, while making good their retreat. But one by one the gun nests were taken by assault or forced to retire.

The withdrawal of the Germans is regarded as a direct result of the enormous pressure against their line extending north of Soissons. It will not be a surprise, however, if a secondary resistance for another brief interval will be made where the line runs back toward Rheims.

It is pointed out that the Germans cannot afford to hold their line, since pressure will be exerted and they cannot afford to leave a salient at that point. By shortening and straightening their line with its base on the Chemin des Dames, the Germans will be able to release two of their four divisions for much needed support in other sections.

Vesle Crossed on 20-Mile Front.

Paris, Sept. 5.—In addition to forcing the Germans to retreat north of the Oise and on the Vesle front the French made big gains northeast of Noyon, according to the War office announcement. The greatest gains were made north of the Vesle, which has been crossed on a front of nearly twenty miles.

YANKS OCCUPY FOUR TOWNS

Are Closely Pursuing Germans North of Vesle River.

Washington, Sept. 5.—American troops in close pursuit of the Germans retiring north of the Vesle have captured the villages of Bazoches, Perles, Fismette and Baslieux, taking prisoners and machine guns. General Pershing reported in his communiqué received at the War department. The statement follows:

"Yielding to the continued pressure of the Allied forces, the enemy is in retreat north of the Vesle. Our troops, in close pursuit, have taken Bazoches, Perles, Fismette and Baslieux, capturing prisoners and machine guns. They have reached the line of Vaux-cere-Blanz-le Grandameau.

WORLD'S RECORD IS BROKEN

American Yards Built 340,145 Tons of Ships in August.

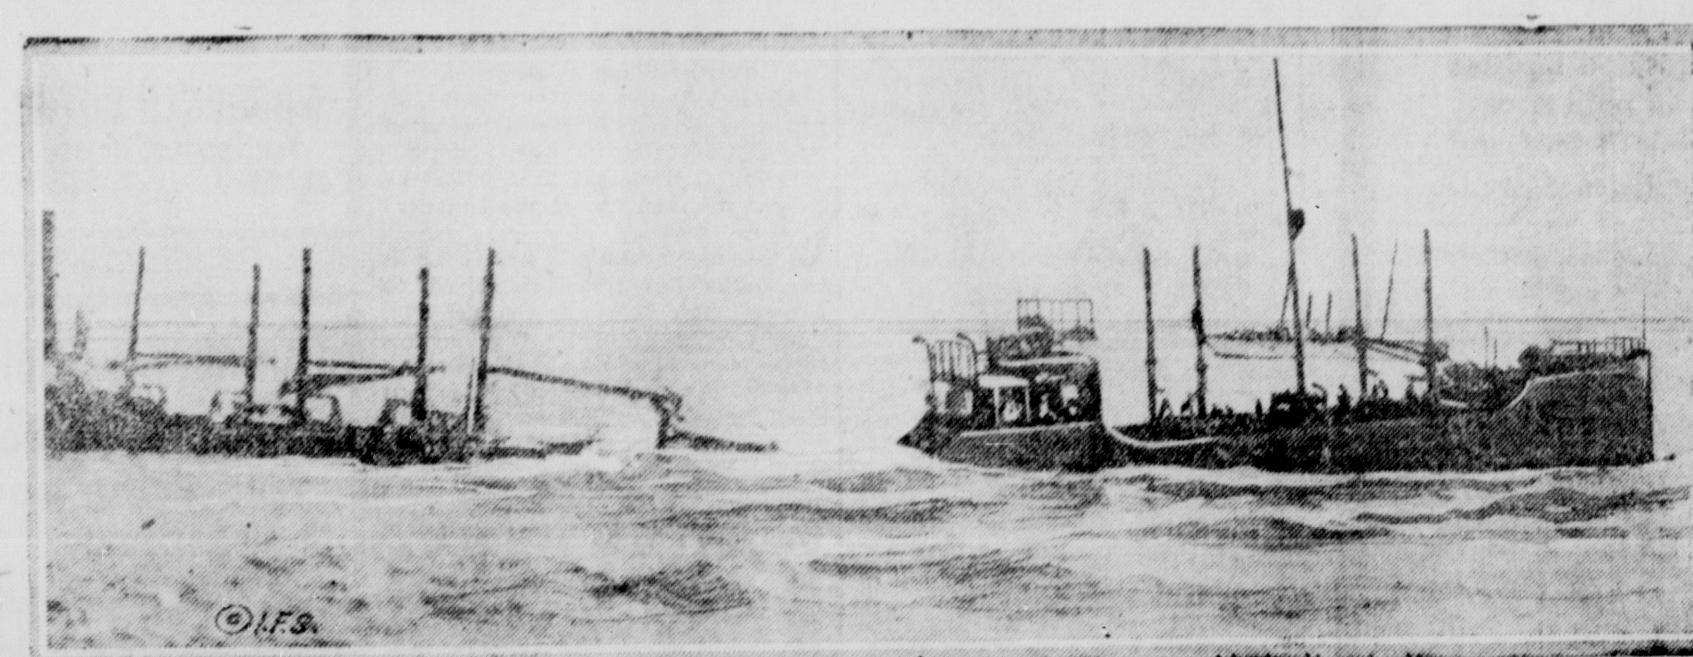

Washington, Sept. 5.—Delivery of merchant ships by American shipyards in August exceeded all previous records for this country. Chairman Hurley of the Shipping board was advised by Charles Schwab, director general of the Emergency Fleet corporation.

Sixty-six ships, aggregating 340,145 dead weight tons, were turned out.

Forty-four of the ships of an aggregate deadweight tonnage of 260,645 were steel and the remaining 22 were wood or composite.

August production of American yards was a world record. Shipping board officials said, the previous monthly record of 295,911 deadweight tons having been made by British yards last June.

WOMAN'S REALM

Harvest Home

Next Sunday at the Methodist church the pastor, Rev. F. W. Hill, will preach a "Harvest Home" sermon on the theme "Grain-Filled Granaries." The church will be appropriately decorated for the occasion with the fruits of garden, field and farm. Farmers and gardeners are especially welcome. Those having choice samples of grain or fruits are requested to send them in for decoration. The members and friends of the church are requested to be present at this important service in which thanks will be rendered to God for our abundant harvests.

On Tuesday evening this event will be further celebrated by the Ladies' Aid society who will put in their annual harvest home supper in the church dining room. The general public is cordially invited to patronize this supper. Come and enjoy a good square meal served by the ladies of the Methodist church.

Baptismal Service

Next Sunday morning at the opening of the 10:30 service at the Methodist church, the sacrament of baptism will be administered for young children. Parents are requested to speak to the pastor concerning the baptism of their little children.

At the Best Today and Tomorrow

Not one person in a million will ever have the opportunity of witnessing an aerial battle in the clouds at close quarters. Yet this amazing adventure can be experienced vicariously by anyone with eyes to see who attends the presentation of "Italy's Flaming Front," the newest, most blood-stirring and graphic of all war pictures yet brought to this country, which opens at the Best theatre today for a two days engagement.

The Italian and Austrian airmen in conflict above the Adriatic Sea are but two extraordinary figures in this impressive and crowded drama of the struggle for the overthrow of autocracy on the eastern front. Beautiful photographic scenes are also shown of the fighting in the Trentino Alps, "on the roof of the world," along the snow-capped range that sweeps westward from Lake Garda to the Swiss border, and by the shores of the Adriatic Sea, where Italian hydroplanes and battleships are shown going into action against enemy raiders.

Did Service to Humanity.

Captain Hutchinson, the dockmaster at Liverpool, is credited with having originated the reflecting lighthouse in 1763, and another great improvement in the invention of a light for lighthouses was made by Lieutenant Drummond, who was the first to suggest the using of oxyhydrogen light. Today there is no danger rock or point along any of the navigable coasts but has its modern lighthouse.

Today and Tomorrow at the Best

The exploits of the "Cavalry of the Sky" make a noble chapter in the story of the World War, but Italy's great contribution to the Allies cause is her marvelous "Infantry of the Sky." The dare-devil feats of this cloud-laden infantry are exhibited in a thrilling manner in "Italy's Flaming Front," to be shown at the Best theatre today and tomorrow. These courageous fighters have carried their battle-line into the sky without the use of airplanes or dirigibles, and the record of their achievement, shown in this film, is one of the most spectacular revelations of the war. These amazing spider men of the Italian army have spun a net work of cables uniting the highest mountain-peaks of southern

Europe, and upon these cables they transport guns, munitions and supplies with the rapidity of express trains. But their own fearless performances on these tight-ropes, in the sky, are even more sensational. No incline is too steep, no peak too high, no chasm too deep for them. They are as much at home in the clouds as fish are in the sea, and what to you seems a death-defying performance is only part of their every day work. The ease, the agility and the courage with which these men have overcome the obstacles of Nature, is one of the wonders of the epoch-making present.

GREAT BRITAIN MAKES DEMANDS

Calls on Soviet Government to Make Reparation for Raid on Embassy.

ONE OFFICIAL IS SLAIN

Soviet Regime Is Told That Perpetrators Must Be Punished and That Russian Officials Will Be Held to Account.

London, Sept. 5.—Great Britain has sent a note to the Bolshevik government at Moscow demanding reparation and prompt punishment of those who attacked the British embassy at Petrograd Saturday, when the embassy was sacked and Captain Cromie, the British attaché, was killed.

The British government threatens in the event of the failure of the Bolshevik government to give satisfaction, or if there should be a repetition of acts of violence, to make the members of the Soviet government individually responsible and have them treated as outlaws by civilized nations.

Body Barbarously Mutilated.

In its protest the British government declares:

"An outrageous attack has been made on the British embassy at Petrograd. Its contents have been sacked and destroyed. Captain Cromie, who tried to defend it, was murdered, and his body barbarously mutilated.

"We demand immediate reparation and the prompt punishment of any one responsible for or concerned in this abominable outrage.

"Should the Russian Soviet government fail to give complete satisfaction or should any further acts of violence be committed against a British subject His Majesty's government will hold the members of the Soviet government individually responsible, and will make every endeavor to see that they shall be treated as outlaws by the governments of all civilized nations, and that no places of refuge be left to them."

A Russian government wireless message, giving details of the supplementary agreements to the Brest-Litovsk peace treaty says that the demarcation will begin forthwith on all fronts. The treaty has been sent to Berlin for ratification.

Germany will evacuate the whole territory occupied east of Estonia and Livonia immediately frontiers are established. Other occupied territories to the east of Germany will be evacuated when Russia has completed her financial obligations, which must be done in the first four months.

With the exception of those portions of Russia not affected by the treaty, Germany will not support the formation of new independent states in Russian territory.

Russia will fight against the troops of the Allied powers in northern Russia.

Germany promises that Finland will not attack Russia.

Russia renounces its sovereignty over Estonia and Livonia.

110 AMERICANS DIE IN ACTION

Pershing Cables List of 808 U. S. Casualties.

Washington, Sept. 5.—Eight hundred and eight names are carried on the casualty list issued today by the war department.

General J. J. Pershing cabled that 110 American officers and enlisted men had been killed in action, 21 died of wounds, 23 died of disease, 15 died of accident and other causes, 469 wounded and 170 missing in action.

The American losses now total 25,528.

Our Boys in France and Home Protection

The men on the firing line represent the pick of our American youth. One in four of our boys at home was sick, rejected because of physical deficiency. Many times the kidneys were to blame.

If we wish to prevent old age coming on too soon, or if we want to increase our chances for a long life, Dr. Pierce of the Surgical Institute, Buffalo, N. Y., says that we should drink plenty of water daily between meals. Then procure at the nearest drug store, Anuric (double strength). The cost is 6¢. This "Anuric" drives the urine acid out and cures backache and rheumatism.

If we wish to keep our kidneys in the best condition a diet of milk and vegetables, with only little meat once a day, is the most suitable. Drink plenty of pure water, take Anuric three times a day for a month. You can obtain a trial package of Anuric by sending 10¢ to Dr. V. M. Pierce, Buffalo, N. Y.

Sr. PAUL, MINN.—"I just want to say

At times I would have them in my back, then they would start in my left shoulder and run down into my arms, also in my left side extending down the limb to my ankle. I can't begin to tell how much I suffered during this time. A short time ago I heard of Dr. Pierce's Anuric. I have only taken one bottle of the tablets and today have got a pain or an ache. I cannot say enough in its praise."—JOHN EVENSON, 1063 Greenbriar Avenue.

She filed a bond for \$34,000 for any damage that might ensue.

DEAD TO BE BROUGHT HOME

Yankees Killed in Action Will Not Rest on Foreign Soil.

Washington, Sept. 5.—Americans who lose their lives in the war abroad will be buried there only temporarily. Where identification is possible the bodies will be placed in marked graves, to be brought home when the war is over.

This plan of the War department was disclosed by the publication of articles of agreement between the army and navy regarding the transportation of sick and wounded from overseas.

Clean Hands and Pretty Nails---

Clean hands do not always mean a mere daily washing with good soap—although good soap is absolutely necessary. It may be also followed by a treatment with a good hand lotion to keep the skin so soft and white and nice. Pretty nails denote good character. Frequently we are judged by the condition of our nails. We can sell you all necessary manicure goods of very highest quality in any popular assortment.

We make a specialty of Hand Goods whether in Brushes, Soaps, Creams, Lotions or Manicure Needs. It will always pay you to buy such goods here.

-- CHIROPRACTIC --

Conserve your health and that of your family by promptly consulting your chiropractor and getting him to make a spinal analysis. In these days health is the most precious gift you can have and chiropractic will help you to get it and keep it.

TEACHING FOREIGN LANGUAGES

The idea of teaching foreign languages to young children in the United States and using the language as a medium to give general instruction in necessary educational branches and thus superseding in function the great American school system is preposterous and should be done away with.

Imagine a child gaining the functions of American citizenship, patriotism, loyalty and all that constitutes the great groundwork of America in a foreign language school.

It is time this bi-lingual proposition was wiped out. If foreign languages are to be taught, let them be a part of the high school course and under American school supervision.

This is America, one language, one flag, one government. Imagine a poor little patriot going to a foreign language school in competition with the American school system and attempting to give the above pledge, as the little ones are instructed in the American school!

Let the old folks talk the old language if need be, but do not set the children at work acquiring an American education by first digesting a foreign language. That is one reason why America's melting pot sometimes does not fuse properly.

The school rooms are to be enlarged.

NO CHANGE IN POLICY

German lies as usual are handed out by officers of the huns. Remember the commander of an Atlantic pirate who engaged in conversation with an American prisoner and stated they had first been instructed to sink only three-masters but that on account of the hostile attitude of the American press they had now received instructions to sink everything in sight.

On September 4, 1914, German suba started war on fishing boats by sinking 15 in the North Sea. The German policy has not changed since then.

British Soldiers Given Titles.

Elevation in the service has long been the term in Great Britain of rewarding the most distinguished military service, and the roll of the house of lords has been enriched by the addition of many illustrious names. In no quarter of the world have these titles been so frequently won as in India. To Robert Clive the British owe very largely their possession of the great dependency. For his victory at Plassey Clive received the somewhat inadequate reward of an Irish barony. A later generation felt that something more was due to his memory, for his son was advanced to the earldom of Powis.

Melon Social

Friday evening of this week at 8 o'clock in the social rooms of the Methodist church, the men of the church from the ages of sixteen and upward are requested to bring their men friends and gather for a melon social. No special personal invitations are being given but the men are hereby requested to take this as an official announcement of the same and be present. There will be no charge made and no finances solicited. Plans for the progress of the church will be under discussion and a pleasant social evening enjoyed.

SAVES TEN NEGRO SOLDIERS

President Affirms Death Sentences on Six Others.

Washington, Sept. 5.—Death sentences of 10 negro soldiers who participated in the riot at Houston, Texas, Aug. 23, 1917, have been commuted to life imprisonment by President Wilson.

In six other cases the President affirmed the death sentences because the condemned men had been found guilty of having deliberately and with great cruelty murdered civilians.

This action announced by the War department, concludes the cases of 29 negroes given the death penalty for their part in the riot. Thirteen were executed and the President was called on to review the findings in 16 cases.

FOUR PERSONS KILLED

Bomb Explodes in Federal Building at Chicago.

I. W. W. Members Are Suspected of Being Responsible for Act of Violence.

Chicago, Sept. 5.—Explosion of a bomb in the crowded entrance to the \$13,000,000 Federal building killed four persons and injured more than 75 others.

The explosion, the force of which was so great that it not only wrecked the entrance of the building but shattered every window on the first three floors of two buildings across the street, was attributed to the I. W. W. by Philip J. Berry, in charge of the local offices of the Department of Justice.

"This outrage, in my opinion, was inevitable as an act of reprisal on the part of the I. W. W." Mr. Barry declared after a hurried investigation, "following the sentencing of nearly a hundred of their members. We are certain that the I. W. W. committed this deed. I believe that the bomb was composed of nitro-glycerine. Several arrests have been made and we are questioning the prisoners as fast as we can. All persons known to be of radical thought will be brought in for examination."

Raids on two headquarters of the I. W. W. within 15 minutes after the explosion resulted in the arrest of nine men. Several more were taken into custody within the Federal building and a woman, whose name was suppressed, was arrested in a nearby building. More than 1,500 government agents and the entire city police force are seeking the perpetrator of the outrage.

General and Two Sons in the Service

General William L. Sibert, who commanded the first division of the regular army in France, has two sons in the service. One is Captain William C. Sibert who is in the Chemical Warfare Service at Washington, and the other is Lieutenant Edward L. Sibert, who is in the United States artillery school of fire, at Fort Sill, Okla.

WAR COSTING U.S. MORE THAN OTHERS

DUE TO DISTANCE AND FACT THAT WE FEED AND PAY OUR SOLDIERS MUCH BETTER.

LONG TRANSPORT EXPENSIVE

Careful Definition of Words and Terms in the Water Power Bills—Senator Reed of Missouri on the Tragedy of Warfare.

By ARTHUR W. QUENN.

Washington.—The war is more expensive for the United States than for any other country engaged in it. Our people should understand that when they are called upon to buy Liberty bonds, contribute to the Red Cross or the Y. M. C. A., or any other war fund. They should also realize it when they come to pay the taxes. This country is not only obliged to send the best she has to the battle front, but she has to pay for it in a more expensive manner than any other country. A careful estimate has been made and it is found that it costs the United States for the maintenance and equipment of one soldier what it costs Germany to maintain and equip 14 soldiers. This can be very well understood if people realize that not only do the soldiers and their equipment and supplies have to be transported over more than 3,000 miles of water, but a large proportion of the supplies has to be sent a long distance by rail, some of it across the continent. It is because we are so far away that the war is costing so much. And then we feed and pay our soldiers better than European countries do.

It has been found necessary in the enactment of important legislation to define the meaning of words and terms in order to avoid litigation and to prevent any legislation from being extended over matters not intended by congress. The water power bill which has been pending so long in the house of representatives defines a number of words and terms, including: Public lands, reservations, corporation, state, municipality, municipal purposes, navigable waters, navigation dam, project, project works, net investment. All of these words are frequently used in the body of the bill. In the substitute bill introduced by Congressman Sims of Tennessee, the following words and terms are defined: Power plant, private power plant, person, operator, property, war material, to acquire, within the boundaries of the United States war period.

Discussing the extension of the draft, Senator Reed of Missouri said that taking a boy of eighteen or any other age or the father of a family or a husband, to send him to war was a tragedy, and then he added: "There is no such thing as stopping to consider human feeling in war, for war is inhuman and tramples upon all human feelings. If we were to consider war from that standpoint there never would be a war. If all the world would consider it from that standpoint—and it is the proper one—there never would have been a Hun mad with blood lust; there never would have been created a great war armament to destroy cities and devastate countries; there never would have been distilled poison gases

MAKING WATCH TELL TRUTH

Traveler Hits Upon Plan to Make It Unnecessary to Turn His Time-piece Forward or Back.

The average commercial traveler who journeys about the United States has to keep a close watch on his time-piece to see that it is telling the truth. There is an hour's difference in time when you enter and leave some cities, and it's an important matter that you do not forget to set your watch back or forward an hour, according to which way you are traveling. If you overlook it you may miss a train.

An express official who travels almost all the time and is so busy that he sometimes forgets to change his watch at Detroit, Mich., for instance, or at Dodge City, Ia., has frequently had an experience of this kind. Sometimes he has arrived an hour ahead of time, or perhaps an hour after train has left, giving him time enough for reflection.

Recently he conceived the idea of making his watch tell all four different times—Eastern, Central, Mountain and Pacific. He went to a jeweler and had extra hour hands put on his time-piece—each of a different color, so that he can recognize it at a glance, on the face of his watch. For instance, the ordinary hour-hand, set at Eastern time, is silver; a blue hand, set an hour back, represents Central time; a red hand, for Mountain time, is set two hours back, and a green hand three hours back, represents Pacific time.

You can do this to your own watch. The jeweler will make a set of hands of these colors and alter your watch for a consideration of a few dollars.

Insurance Policy and Marriage.

"The important thing is that the insurance policy—big or little—should come into every home with the marriage license. It should precede the savings bank account, the home, yes, even new clothes, or butter on the table. No man has a right to take a girl out of her father's home without protecting her from starvation in case of the accident of death."

"There comes the unhappy word again—death. Yet the shadow of it need not rest heavily upon us. The unfortunate thing about a will is that it is associated in the average man's life only with death. It should be associated with life. The time for a man to make a will is today, while he can do it with a smile on his lips, and the joys and good wishes of his witnesses ringing cheerfully in his ears. Such a man cannot cheat death of its ultimate victory; but he robs it of its sting, for he has made death powerless to bring poverty and distress to those who are left behind."—Woman's Home Companion.

Julius Deering Removes from South Broadway to Imgrund Garage on South Sixth St.

Julius Deering has removed his plumping, heating and repair shop from South Broadway to the Imgrund garage on South Sixth street. At the latter place he has widened his field of activities by adding a new department on auto radiator repairs and will have a specialist in that field here early in October.

Mr. Deering has been very successful in his installation of Moistair furnaces. In roofing, cornice work and other tin shop work, general repair work, he is very competent.

Famous Connaught Rangers.

The Connaught rangers were originally called the "Devil's Own" because of their rascality, but their superb fighting in the Peninsular war changed the term from one of reproach to one of honor. At Fuentes d'Onoro and at Badajos they fought with amazing fury.

SEED CORN DRIVE CROW WING COUNTY

In Charge of County Agent E. A. Colquhoun, County Allotment is 2,333 bushels

DRIVE FROM SEPT. 10TH TO 20TH

Recent Frost Has Done Some Damage, But Good Deal Seed Corn Can be Selected

County Agent E. A. Colquhoun has been put in charge of the seed corn drive in Crow Wing county. The allotment for the county as previously published is 2,333 bushels. This figure was determined by taking one bushel for every three acres that is usually planted to corn. The drive is to take place September 10th to 20th. The recent frost has doubtless done some damage but it is believed that a great deal of good seed corn can still be selected.

A survey of the seed corn situation for the whole county is to be made. The school board clerks that served for 1917 have been appointed to report for their respective districts.

A complete list of the clerks for 1918 was not available so the 1917 clerks were taken. They have authority to require the assistance of other school board officers if they desire it.

Each clerk will forward the report to the county agent who will make a summary of all of them and send it to the state department at the University Farm.

ESTIMATES ON REGISTRATION DAY

Registration day, Sept. 12, is expected to record 3,408 in Crow Wing county. These figures are from estimates made by the Adjutant General's office.

On June 5, 1917, draft registration yielded 2,527 and with additions made later the total mounted to 2,570.

On June 5, 1918, there were 189 registrants.

On August 24 there were 44 registrants.

The Crow Wing county draft board has named registrars and assistants in the various precincts of the county. In the meantime literature has been distributed and is being posted so that every draftee can familiarize himself with the form of the cards and be prepared to give the information about himself quickly.

AID DAIRY COWS KEEP OFF FLIES

Stop Decrease in Milk Production in Hot Weather by Eliminating Insects.

ADDS TO DAIRYMAN'S INCOME

Losses of Live Weight, Discontent and Unrest Are Promoted Among Animals in Summer as Consequence of Little Pests.

(Prepared by the United States Department of Agriculture.)

Help dairy cows fight flies, for it is worth while, not only because of the comfort it gives the animals but because it adds to the income of the dairyman by increasing the milk yields. Decrease in milk production, losses of live weight, discontent and unrest are promoted among herds during the summer months as the consequence of the activities of the common stable fly and horn fly. An average decrease in milk flow of from 25 to 40 per cent is not uncommon as the direct result of flies and the extreme heat of summer. Under existing conditions with a keen demand for dairy products and with prices at a high mark, it is highly desirable that every dairy farmer exercise a maximum of care and caution to eliminate the fly evil.

Some Practical Remedies.

Remedies are darkened barns, stable sanitation and spraying with fly repellents. Thorough treatment of manure, its daily removal from the barn to a distance, the use of hanging burlap or other devices in the barn doors to brush flies from the animals, baited fly traps placed outside the barn and closed milk pails are among the necessary requirements for keeping flies away.

The stable fly, armed with biting mouth parts, punctures the hide of cows and sucks their blood, while the horn fly locates at the base of the horns where it irritates the skin and
